ULTRALITE

ULTRALITE

This is our traditional 7-ply construction with over 10 years of testing and proven strength. Ultralite boards are generally the deck of choice by our team riders for the perfect mix of lightness and strength. Built to withstand the rigors of everyday street, park and ramp skating. Durable and dependable.

HGP HIGH-GLOSS PAINT

HGP CONST: HGP stands for High Gloss Paint, our traditional 7-ply Ultralite (and select 6-ply Microlites) with an all over coat of paint: top, sides and bottom. This coat of paint helps to seal the board and lock in the stiffness of the deck and also makes it slide better. The boards maintain their pop. Comes in the proven LOK Concave mold.

Alien Workshop Deck Constructions

mini

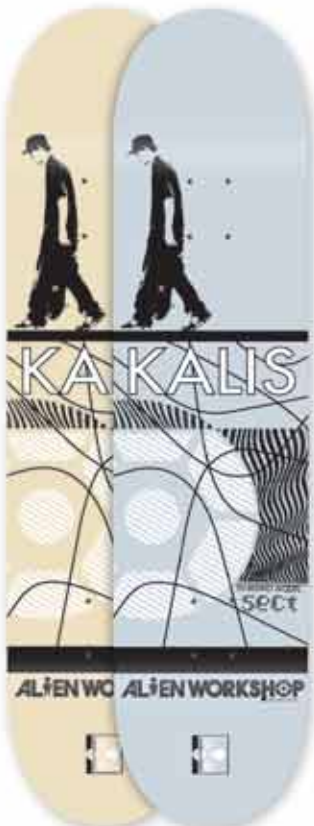

Mini decks are made for younger, smaller skaters with the same quality and construction as our full size models. The nose, tail and wheelbase are carefully adjusted for a balanced deck.

NICE PRICE

Nice Price decks offer the same strength & durability as all of our other decks but are made with all natural veneers and less ink to keep the price down so that you can afford to skate the best decks at the best price.

Pre Assembled Completes
Completes are available of any combination of Habitat deck, wheels and trucks we offer. All feature Reflex performance bearings. Call for price and component breakdown.

Habitat Deck Constructions

Our newest construction features a thin sheet of woven hemp cloth between the plies for added strength and stiffness. Featured on the new Land of Lore Series.

Our traditional 7-ply with an all over coat of earth tone paint: top, sides and bottom. This coat of paint helps to seal the board and lock in the stiffness of the deck and also makes it slide better. The boards maintain their pop.

Nice Price decks offer the same strength & durability as all of our other decks but are made with all natural veneers and less ink to keep the price down so that you can afford to skate the best decks at the best price.

Reflex Utili Tool
The only skate tool you'll ever need. A combination of 8 essential skateboard tools in one. The Utili tool is the only multi-tool that features an axle rethreader. No more problems with worn axle threads ruining an otherwise good set of trucks. 3/8", 1/2" & 9/16" sockets, bearing press/remover and axle rethreader are incorporated in the main tool while the detachable "T" piece handles the head of bolts with a 1/8" allen, 7/32" and phillips screwdriver. Made of heavy duty steel and durable abs plastic.
#RXT

The only multi-tool with an axle rethreader!

Trucks

We carry all of the major brands. Call your sales representative for specifics on sizes & colors. Bullet, Destructo, Independent, Krux, Orion, Royal, Tensor, Thunder, Tracker and Venture.
